

UTX's Product

The newly elected Indonesia President, Pak Jokowi, visited the Waduk Marunda (Marunda Water Dam) in Jakarta last month.

The Indonesia PU/Public Work Department is using the amphibious excavators for the construction of the water dam. (There are 6 units of Ultratrex amphibious excavators at the project site)

Remark: Ultratrex amphibious excavator c/w Sumitomo SH210-5 upper excavator body.

External Audit - ISO 9001:2008

Our continuous effort in implementing and maintaining Quality Management System (QMS) has shown a great achievement and successfully had renewed our ISO 9001 certification.

Definitely we're proud of our attainment and will continuously give our best. Hard work will always paid off!
