May 2015

Intermat Exhibition, 20-25th April 2015, Paris.

We had a successful exhibition together with our European partners in Paris this month. Our booth attracted quite a crowd during the 6 days exhibition.

There are a number of potential customers. We also received an order of 2 units of 30 ton amphibious undercarriages from an established Italy customer during the exhibition. The delivery of this order is in June 2015.

Customer Feedback

It has been well-proven that the efficiency of the 20 ton amphibious excavator with the Bell200 hydraulic driven cutter suction dredging pump.

Comments from customer: Finally what has been proven is that the application of amphibious excavator dredging pump is correct method, 5 times lower in operating cost, and 3 times faster in progress. Thanks to all ones in uniforms of each organizations working at Oun Hlaing River.
