Construction Exhibition in Indonesia, South Africa and Chile

In the past two months, our marketing team had participated in 3 major construction exhibitions. We had a fruitful shows to meet trade visitor from around the world and expand global contacts with the exhibitors for future business development. Our participating of the show has significantly increase our exposure to the shallow dredging and mining industry. We strive to establish our commitment to the market and we will continuously develop the innovative products to meet customer satisfaction. In Santiago, Chile Conexpo Latin America, trade visitors were amazed by the application and final result of our amphibious excavator. As we are specialized in designing and custom made the amphibious undercarriage to be mounted on any preference brand according to the customer's requirement. We believe hard work will pay off and a big thank you for the trade visitors who had a joyful discussion at our booth and we appreciated the abundant support from our partners from Indonesia, South Africa and South America.

**Construction Indonesia,
