

SECTIONAL BARGE

Ultratrex sectional barge can be easily mobilized / transported by trucks. This has helped customers on the inland rivers & lakes dredging project.

We design and manufacture sectional barge according to customer requirement.

Benefits of Ultratrex sectional barge:

- 1) Modular & interlocking with additional sectional barge.
- 2) Designed to be containerized & truckable.
- 3) Customized make according to customer requirement.

Application:

- 1) Storage Barge Transporter for shallow water dredging (Lake, reservoir & inland river)
- 2) Floating platform.
- 3) Excavators, cranes & bridge construction machinery working platform
